# MANIFESTO

We believe that illuminations bring more than just light to urban areas and living spaces.

We believe in their power to amaze, to enlighten and to create fairytales. The way we design and develop our illuminations incorporates those qualities in every detail.

We are committed to produce items of quality whilst doing our utmost to protect both the environment and humanity. Goodwill and an ethical approach are at the heart of our company's beliefs and can be found in all our projects worldwide.

We are Blachere and we have been producing illuminations with care and passion for 50 years.

# A BEAUTIFUL STORY

It all started in 1973, in Apt, when Jean-Paul Blachère lit up his first street. The locals' smiles and reactions confirmed that lighting has a unique magical power.

Lighting became his profession, one that he has pursued with dedication, creating a unique know-how and heritage that he has passed on.

For 50 years, we have been designing, creating and producing decor and illuminations in over 80 countries across the globe with as much enthusiasm as that very first day.

500 employees work every day to enhance cities around the world.

# 50<sup>th</sup>

Wherever our projects take us, we work with the same attention to illuminate the smallest village as the largest capital.

We understand and adapt to the needs and challenges of all cities, from Mexico to the US and Sweden.

Thanks to locally-based teams in 27 subsidiaries dotted around the world, we can meet the expectations of each city and the culture of each country so that our installations are as unique as they are practical.

**27 subsidiaries**  
**1000 city illuminations in**

LIGHT UP  
THE WHOLE WORLD

### THE GLOBAL COMPACT

Launched in 2000, the United Nations Global Compact is the world's largest corporate responsibility initiative.

Blachere Illumination has been committed to the UN Global Compact's Corporate Social Responsibility initiative and its 10 Principles on human rights, labour standards, the environment and anti-corruption.

**70** Local networks  
**170** Countries  
**21 000** Participants

ANTI-CORRUPTION

### THE BLACHERE FOUNDATION

Our corporate foundation was created in 2004 by Jean-Paul Blachère and supports contemporary African creation and promotes artists from the continent. It presents exhibitions and hosts artists in residence at its art centre. It also arranges creative workshops in Africa and Europe and enters major African biennale exhibitions, including Dakar.

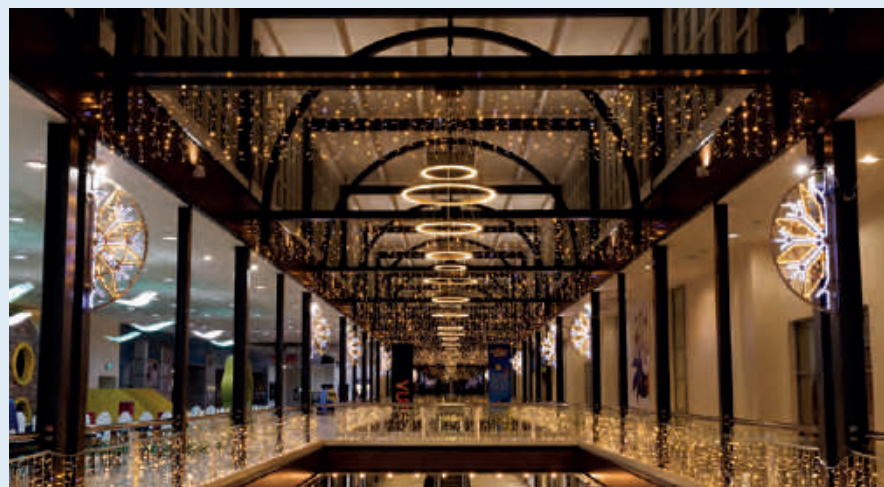

### «LE VILLAGE PRÉFÉRÉ DES FRANÇAIS» (The French's favourite village)

We are partners of the «Village Préféré des français». Having always contributed to the development of local economies and the influence of small municipalities, we are happy to have illuminated Esquelbecq (59) and Lavoûte-Chilhac (43), the municipalities that ranked 1st and 2nd in this competition.

# OUR COMMITMENTS

We love and appreciate that you are taking the time to flick through our catalogue. We hope it brings inspiration to you as we have poured our passion and 50 years of experience into the development of this product range.

A passionate team of 40 are here to bring your visions to life and enable your strategic aims to be fulfilled.

From the initial contact to the switch on of your display, we are all here to bring magic to your scheme.

Thanks to our three depots and remote sales team spread across the UK, we offer a local service. Combining our 50 years of experience as market leaders with your expert site specific knowledge, enables a bespoke process for any city, town, village, shopping centres, retail parks etc. With passion and experience we will understand the specific needs of each project to bring you magical experience.

**we have poured our passion and 50 years of experience into the development of this product range.**

Whether you have a specific vision, that we will use our manufacturing capabilities to bring to life or are starting out with a requirement to grow footfall. We can lead you to a successfully delivered scheme that will exceed your expectation while adhering to your budget requirements.

Relationships are important to us, that's why you'll always have someone to talk too at Blachere. Whether it's your dedicated local contact or any of our other team members, we provide our clients with four points of contact to promote great communication.

We are so proud of the sustainability focus we are continuing to develop at Blachere. No where else can you find such cleanly produced products. With more and more sectors turning to us to satisfy their own eco requirements, we are proudly leading the industry for a better tomorrow.

IN  
THE UK

Kings Road, London

The Shard London

Marylebone High Street, London

Multrees Walk, Edinburgh

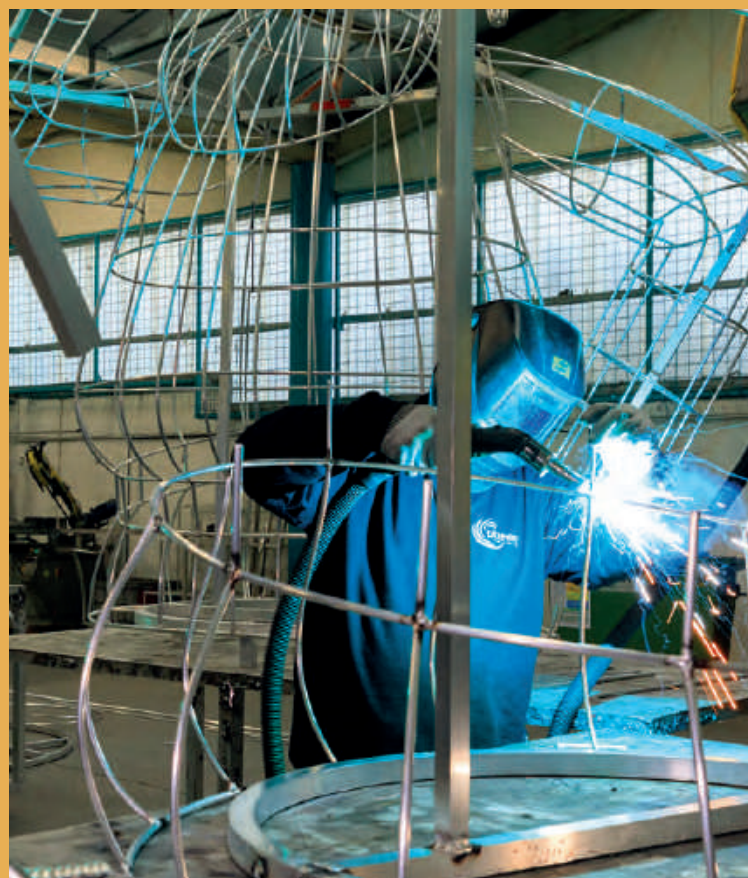

We offer the complete package of design, manufacture and installation.

Due to our global scale, we can control the supply chain while bringing you a local approach.

All our 50 years of experience enables us to seamlessly bring your vision to life.

IN  
THE UK

Everything starts with a pencil stroke... creation is the basis of all our projects.

In France and around the world, more than 30 designers imagine our decorations with care and passion.

They design the decorations of your cities and living spaces, proposing a hundred or so new designs each year to surprise you again and again.

Thanks to our innovations, we have found the right balance between ancestral know-how and industrialization:

From artistic ironwork to the most meticulous wiring, more than 7,000 custom-made decorations take shape in our workshops each year : The «Haute Couture» of illuminations.

At the same time, our catalogue decorations from our Summer and Winter collections are printed using plastic bottles manufactured in our workshop with 10 large-format robot printers. 435,000 eco-friendly decorations have been printed since 2016.

**10 large-format robot printers**

**5 sites of production**

**400 people in our international workshops**

FACE EACH  
CHALLENGE TOGETHER

Eco-responsibility is at the heart of our corporate strategy, and we are constantly thinking about innovation and the use of eco responsible materials more than ever before. Even if some of our ideas are off-the-cuff, our innovations are covered to numerous patents and all our creations are protected.

In order to respond with creativity and practicality to the new challenges posed by energy-saving needs and ecological issues, we continually design and produce ingenious solutions and tools.

After Bioprint, a recyclable and biodegradable material based on sugar cane, we are transitioning to a 100% Recyprint range of 300 decorations made from recycled plastic bottles.

Half of our research and development budget is allocated to ecoresponsible innovations.

**We have removed 80% of the aluminium in our 2D decorations, 100% Led low consumption for 20 years.**

Our 100% LED lighting components are also recycled after use and are all connectable via our Octoplus fast connection system.

In addition to our eco-responsible structures, we have devised some ingenious tools: TEMPO, SAVER & MASTER which make it possible to time, control and program decorations in both small towns and buzzing cities, resulting in cost-savings of over 50%!

# REFINED CREATIVITY

# RECYPRINT

a plastic transformed into magical decorations

500 billion plastic bottles are produced each year, and many are discarded in the countryside or our oceans

At Blachere, we have found a way to transform PET (polyethylene terephthalate) into decors that are as stunning as they are innovative! Recycled bottles are sorted by colour and then ground into flakes. The resulting granules are then injected into our 3D printers to produce a unique decoration. This method helps to limit greenhouse gas emissions and prevent as many plastic bottles as possible from polluting land and seascapes.

Our innovations are protected by numerous patents.

Recyprint emits 10 times less CO2 than aluminum.

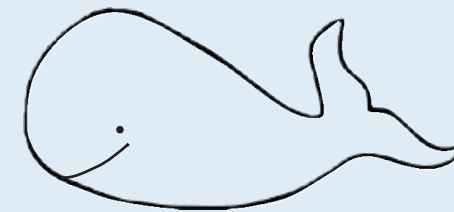

3,000,000 bottles have already been recycled into Christmas decorations.

## SORTING WASTE can be child's play

By encouraging today's youth to recycle is a major challenge that we have answered with creativity and fun. We have made this vital step a fun and playful collective act thanks to creating containers in the form of funny animals.

# BIOPRINT

when nature helps us to create our decor

A revolutionary material for creating structures that are **biodegradable, recyclable and coloured.**

Bioprint comes from a non-GMO bio-based sugar cane which is turned into dehydrated bioethanol in a French laboratory. The granules are dyed with clean dyes and this material is then injected into our 3D printers in our workshops, in order to produce biodegradable, recyclable and coloured structures.

This process limits manufacturing waste and allows for complete short-circuit recycling as we grind down our structures once they are no longer of use. Biodegradation is the decomposition of organic matter by microorganisms and has the advantage of minimising greenhouse gases.

Part of our range is made from Bioprint, **especially for our volumes and our Seasons & Urban range**

Biodegradation is the decomposition of organic matter by microorganisms, without causing damage to the natural environment.

Finally, our decorations biodegrade slowly, so they can be exposed to the outdoors for a long time without any aesthetic or mechanical alteration.

This slow process minimises the release of greenhouse gases emitted during the biodegradation of the complex molecules used in our revolutionary material.

Industrial composting makes it possible to optimise the intelligent management of this biomass, but recycling this material remains the most environmentally friendly option.

This eco-friendly process helps to minimise daily waste production.

These decorations are equipped only with 24V LED garlands.

100% autonomous

Thanks to our new solar-powered rechargeable battery, you can combine lighting with energy efficiency.

Once your decor is in place, position the solar box on top of it facing the right way, set your switch-on and switch-off times and enjoy your lighted decorations.

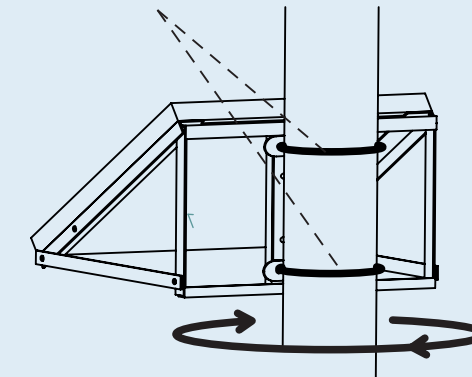

Technical details:

- 8 to 10 hours of recharging with optimal sunlight for 7 hours of lighting.
- Your lights can be programmed to operate for 5, 6 or 7 hours.

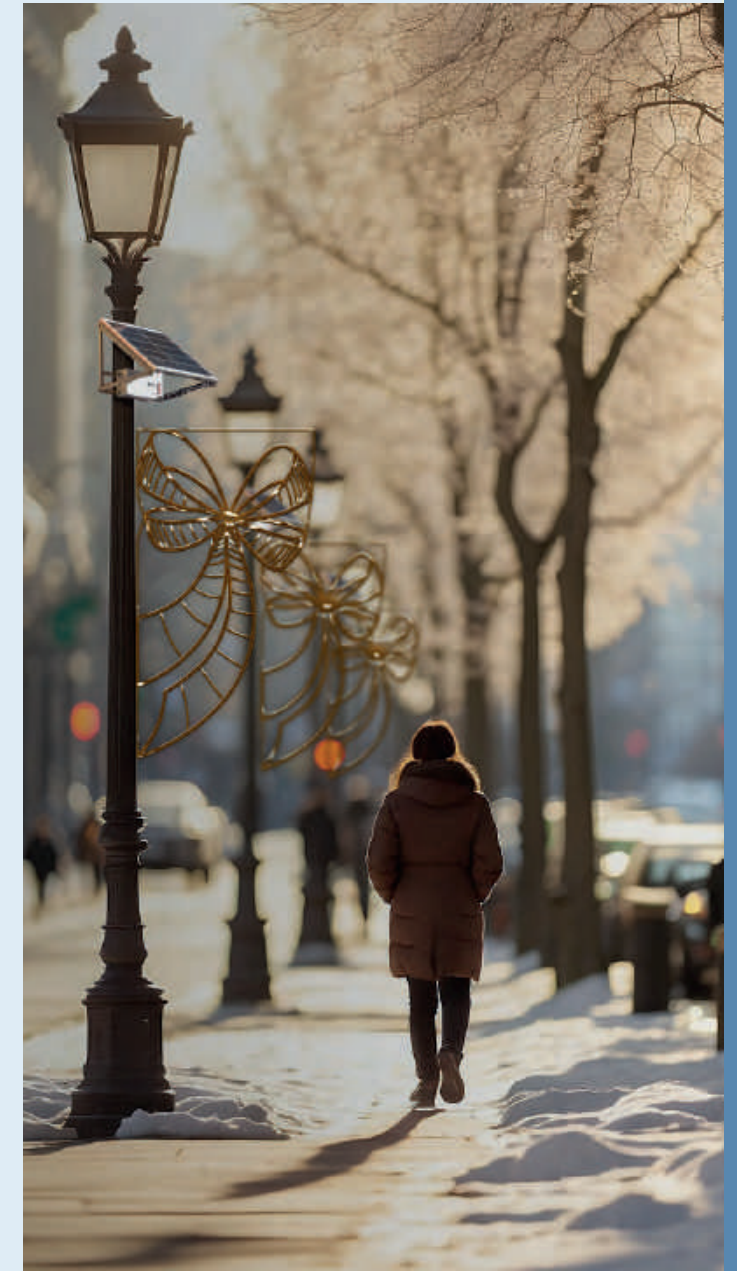

Enter decor reference no. + PIXSOL2

## PIXSOL2

20W panel power  
7,2W power output

When you set it up, make sure it is facing the right way to get the most sun during the day

# PLAY MAGIC

## Play in augmented reality!

Allowing audiences to do things like take a photo with Father Christmas or play with Charlie the Unicorn, our augmented reality apps add virtual characters into the real world, leaving the public laughing and amazed.

Children and adults can easily take part in the fun using a smartphone enjoying an unforgettable experience that transforms reality into a unique performance.

### How does it work?

**For the public, the idea is simple:** When users approach the Play Magic banner, the app they have pre-installed on their phones automatically unlocks to give them access to the games.

They can then share the experience on their social media pages. The public app features your branding and a link to your website or social media.

### For the city:

The games app has a subscription model valid while the illuminations are up, with games updated each year.

Apart from this, all you need to do is install the banner near the illuminations to tell the public they can enjoy a free game on their phone in the location. There is no need for any connection.

The app's success also depends on you advertising it on displays in your town/city and on your social media pages.

We can assist you in setting up your communications (Réf. ARCOM below).

Reference	Description

# CREATE YOUR own Bioprint scenes

Choose from these characters to create your own scene. All the motifs presented are self-supporting on a frame but can also be manufactured in wallmount and polemount (on demand).

- **Choose your frame:** Bauble or Golden Gift (Ref. SC014 or SC015).
- **Choose 2 decorations and create your own scene:** Reindeer, House, Fir Tree, Angel, Sled, Snowflake, Snowman and Gift Packs (Ref. from SC016 to SC025) - Let your imagination run wild!

# NORDIKA

## & 3D

# NORDIKA,

*a majestic conifer as realistic as a natural one* **[Blachere  
Exclusivity]**

Who doesn't love a fabulous Christmas tree? And yet, it takes between 30 and 40 years for a natural conifer to reach 12m in height. As we want to avoid deforestation halting the felling of these majestic trees, we invented NORDIKA. Pre-illuminated with a slowglow effect, easy to assemble and store, they are perfect replicas of their natural version, both in their design and incredibly realistic appearance - as true to life as it gets.

Our environmental approach is based on a simple principle: to save at least as much carbon as we generate. We do this by only using biocompatible materials, which we recycle at the end of their lifespan.

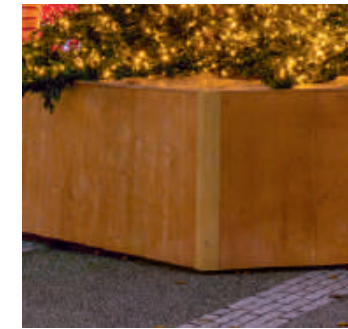

**OPTIONAL  
TREETOP**

**HYPER REALISTIC  
CHRISTMAS TREE  
BRANCHES**

**WOOD-EFFECT TRUNK**

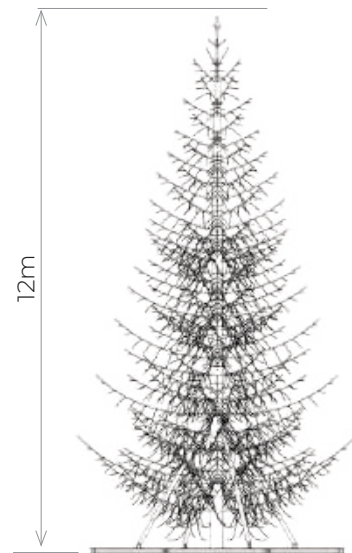

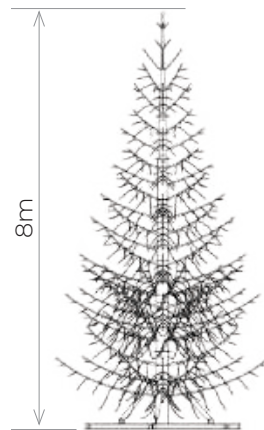

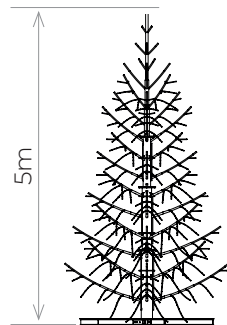

**WOOD EFFECT  
STAND AVAILABLE**

# NORDIKA,

*The Christmas tradition*

The perfect regularity of the branches, the realistic high-quality finishes and a majestic size make our conifers a festive must. You can customise your Nordika every year for a unique look: hang Christmas baubles on its branches, add a set of lights, or even set it on a wooden base.

New construction:  
8 additional branches

**TO ORDER**

# 3D DECOR

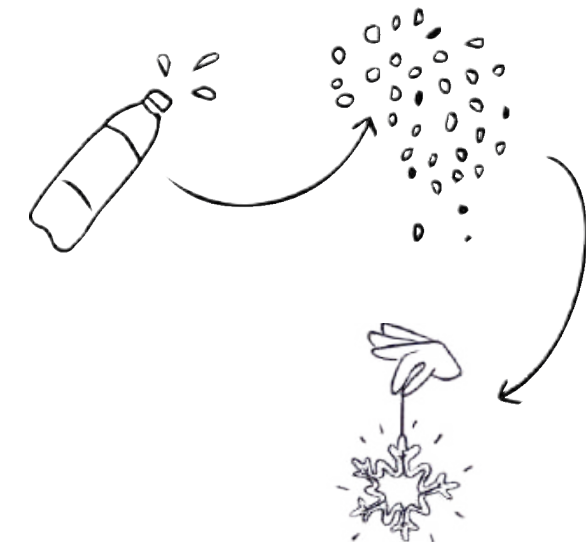

## *Funny animal containers*

By encouraging today's youth to recycle is a major challenge that we have answered with creativity and fun. We have made this vital step a fun and playful collective act thanks to creating containers in the form of funny animals.

Placed in city centres or by beaches, whales, trains and other cute creations house recycling containers. The plastic bottles collected are recovered by specialist organisations who process the bottles to provide the raw materials we injected into our printers for the production of structures in Recyprint, our material made from PET (polyethylene terephthalate) from the food industry.

Thanks to Recyprint, we make beautiful and responsible Christmas decorations!

# 3D DECOR

## *Bi-season arch & tree*

Discover our bi-seasonal urban furniture which changes over the seasons according to the chosen decoration kit.

First of all select your base:

- A bright arch composed of pure white LEDs, livened up with wooden benches
- A shade tree endowed with pure white LED spots and a white wooden bench base equipped with USB plugs.

Then, for a colourful summer look, add the SUMMER passive decoration kit to this base.

For a frosted look for year-end celebrations, add the WINTER bright decoration kit.

# 3D DECOR

*Tree corset*

**Embellish your tree trunks!**

Our tree corsets will adorn and light up your trees while protecting them and ensuring optimal hold.

Available in a wide array of colours, there are unlimited combinations to liven up your urban areas or green spaces with style and creativity.

Customised project, contact us.

# 3D & 2D DECOR

## Letter & spotlights

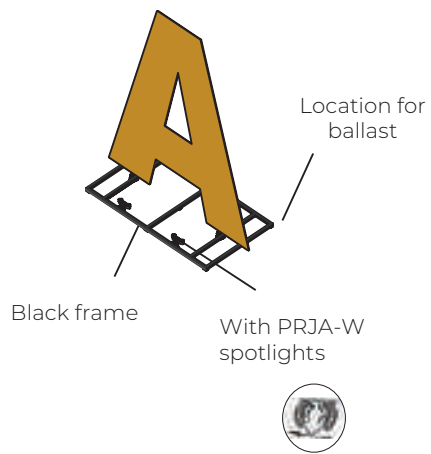

Decorate roundabouts of your town or village with our 2D lettering printed in Bioprint and mounted on a frame.

Each letter is equipped with two warm white spotlights that will enhance your decorations even at night.

Letters available in 1,40m and 2m height.

Custom project, letter 3D possible.

## 2D DECOR

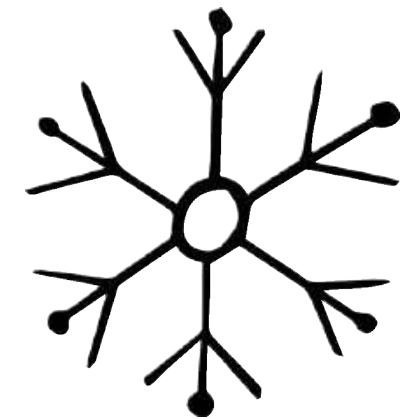

### *Dressing city barriers & planters*

Adorn your urban furniture with colourful environmentally-friendly decorations!

Polar theme, tradi or star — customise the decoration of your town barriers or planters.

You can choose the background colour of the decoration as well as the motif which will be applied on top, everything will be tailor-made in Bioprint, our biodegradable, recyclable material.

Customised project, contact us.

# Blachere LEDs

By considering practical use in their innovative designs, our R&D department has devised the all-new LED+ in both static and slowflash editions to make your projects come alive! Our new and exclusive LED range is the outcome of a long-term collaboration with Nichia®, the world leader in LEDs. The range is:

**+ bright, + robust, + long span, + consistent in terms of color**

The new technical features of LED+:

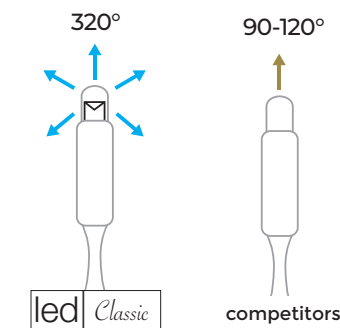

- ▶ **Design is optimized and registered** to promote the luminous efficiency of our product (inverted cone principle).
- ▶ **Thermal dissipation is maximized** for longer LED life
- ▶ **Uniform phosphorus deposition** for a uniform lighting effect.
- ▶ **2 years guarantee**
- ▶ **Optimum protection index: IP66 / IP69**
- ▶ **Octoplus 230V Connection System by Blachere IP67**

**LED+ range: higher performance, lower energy consumption**

Blachere is committed to meeting environmental and energy challenges: **In 2024, we will be lowering the power consumption of our LED+ range in order to reconcile illuminations with energy efficiency.**

Following extensive work on the energy performance of our LEDs, **we have reduced the power of our LED+ range by 15% on average, while retaining its brightness and lifespan.** (the wattage of each product has been updated in our technical information tables).

As a result, **our products consume less energy and yet maintain the same high light density.**

### Our standard LED model!

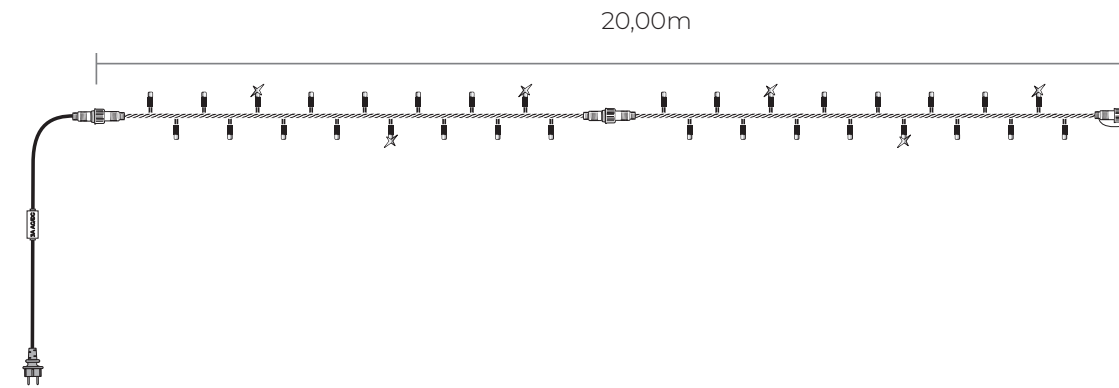

Bright and stable (lifespan and colour), our Classic LEDs has also inverted cones (homogeneous light diffusion).

Its production is closely followed to make sure the quality is optimal and competitive on the market.  
 230V model: IP66  
 24V model: IP55

# Bunch Light® RGBWW Bouquets

*Create a magnificent multicoloured field of light!*

N

KBRGBWW

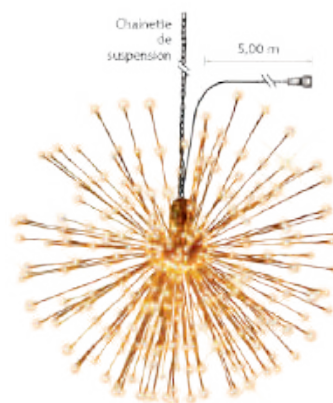

Our new Bunch Light® RGBWW Bouquets can be placed on the ground to create animated and multicoloured luminous surface. they can be customised to create an overall lighting design. Each lighting pearl can be controlled like a pixel to create a multicoloured field of light. The rods are flexible and move with the wind, making a lively and poetic show.

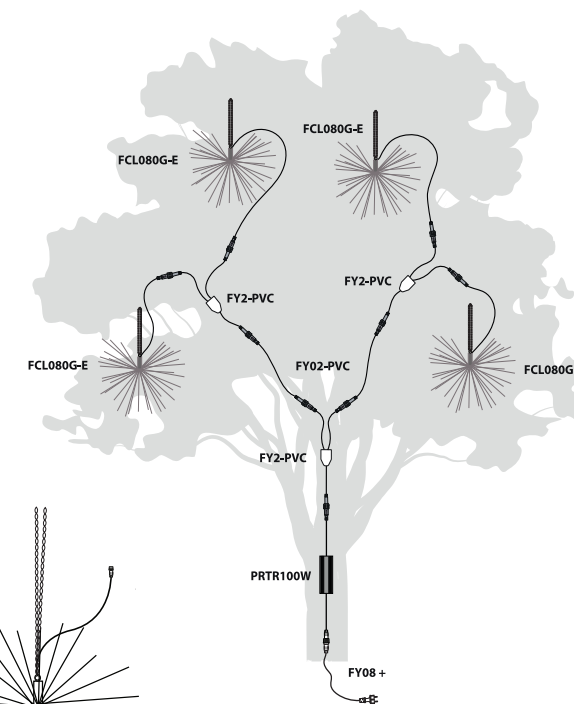

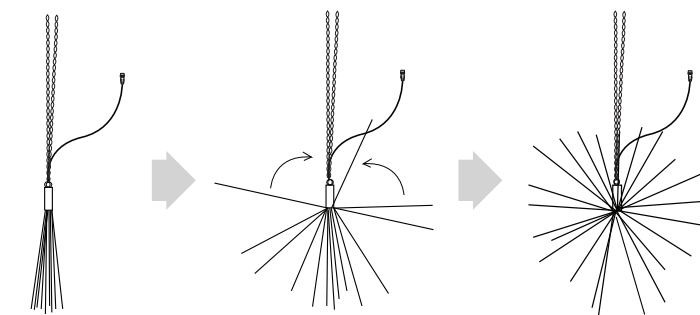

This product is sold per set of 6 bouquets, each made up of 8 RGBWW lighting pearl. For any customised project, please contact your account manager.

# Tree net honeycomb light

N

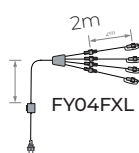

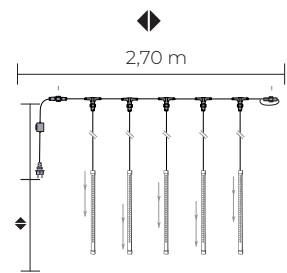

### product info

This net makes easy the decoration of tree trunks... with light. Thanks to its honeycomb mesh, it is placed around the trunk and adjusted to the diameter.  
Ergonomic and practical, it will take you on average 10 times less time to dress your tree trunks than with a traditional garland!  
The colour of the cable (brown) allows it to be less visible during the day and is exclusive to Blachere Illumination.

### product info

The LDL series is a classic of Blachere lighting. A registered model, the particular arrangement of the LEDs in the bulb globe gives a «filament effect» similar to the incandescent bulbs of yesteryear.

The polycarbonate globe guarantees an increased solidity (IK06).

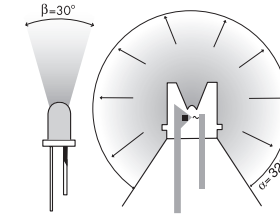

The LDLFL-B22 recreates the effect of a flame, regardless of the mounting direction.

F722-L / F732-L  
A historical product that is easy to use on a B22 lampholder. Produces 1 flash approximately every 3 seconds.

Low power consumption bulb - Note : use the appropriate power (16mA i.e 3,68VA) to calculate the rating of your network (cable section area, circuit breaker, power required etc.). Use 0,5W per bulb to calculate the power consumption.

# Fil lumière®

The use of inverted cone LED (see diagram) enables Blachère LED Garlands and Fil lumière products to offer exceptional luminosity. Can be divided every meter.

#### product info

New range of RGB strip lights. Perfect for facades or monument illuminations.

Use of the SMD RGB led for a better lighting result.

Independent controller bringing greater autonomy thanks to the 10 pre-programmed animations or DMX interface box ref PR-DMX. For more information, please contact us.

# TECHNICAL SECTION

## CONTROL SYSTEM

*For optimised energy management*

**It's time to speed up the «Smart City» movement to save more energy.**

The challenge of eco-design and sustainable facilities, as well as smart energy management, are all part and parcel of a global eco-friendly urban policy. Blachere Illumination is committed to working alongside towns and cities and developing innovative solutions to protect our planet and our future.

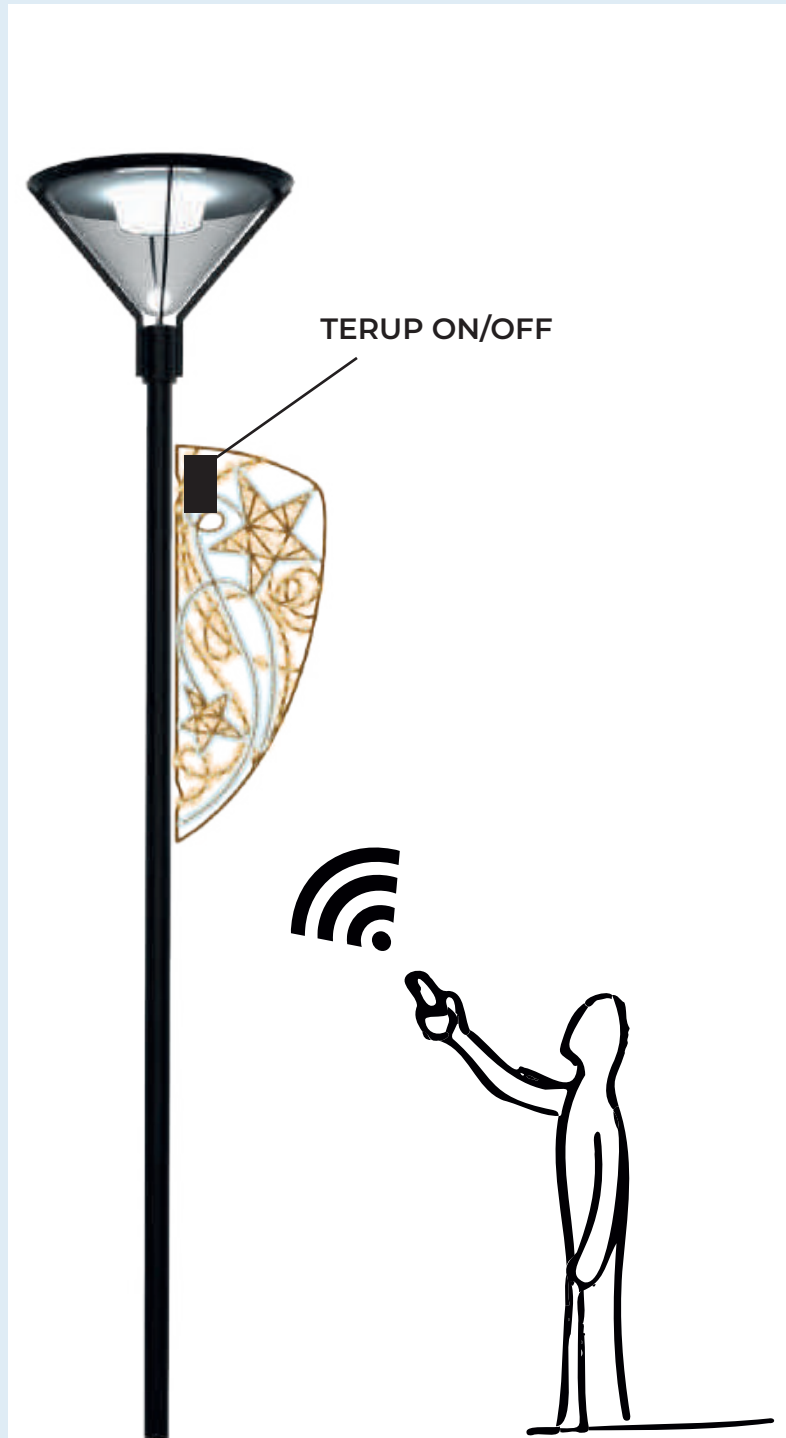

With our lighting management systems, you can remotely manage lighting times and detect anomalies at the click of a button.

This will make it easier for cities to manage their electricity resources and keep them under control, in line with the city's aspirations for environmental protection and sustainable development.

Smart, energy-efficient systems for a sustainable city:

- ON/OFF switch (remote)
- timers
- energy-saving control systems:
  - autonomous
  - global system (SMART CITY)
  - event settings (Cameleon+)

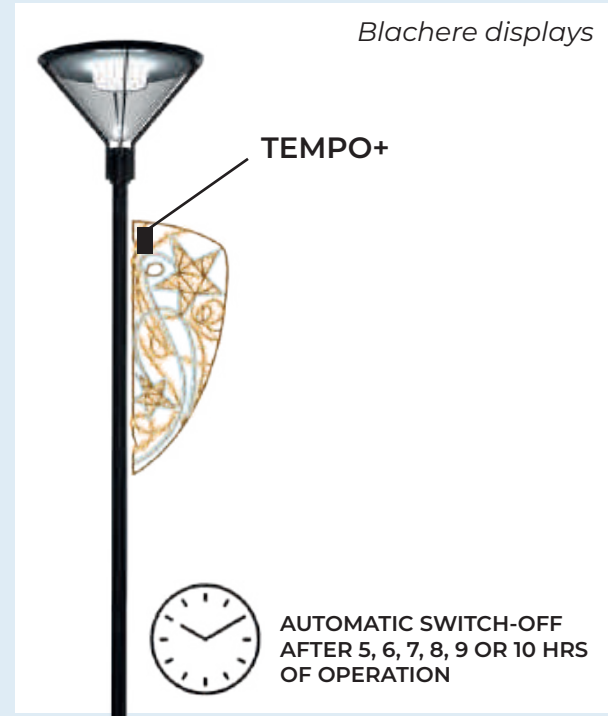

### ON/OFF LIGHT BOX WITH REMOTE CONTROL

With this remote control switch on your display, you can install and connect it to the street lighting in advance and switch it on manually with the remote control on the day the lights are switched on.

Compatible with TEMPO systems.

Ref : TERUP - ON/OFF box  
 Ref : TERUP-C - Remote control (can control several TERUPs)

### «TEMPO+» BOX

Your display with the TEMPO+ box and disconnect it from the street light network - you can also set the lighting times you want.

At the touch of a button, select 5, 6, 7, 8, 9 or 10 hrs of operation then an automatic switch-off. Octoplus compatible.

Ref: TEMPO+

### «TEMPO2» BOX (UNIVERSAL)

Fit your display with the TEMPO2 box and disconnect it from the street light network. It is automatically programmed For 7 hrs of operation.

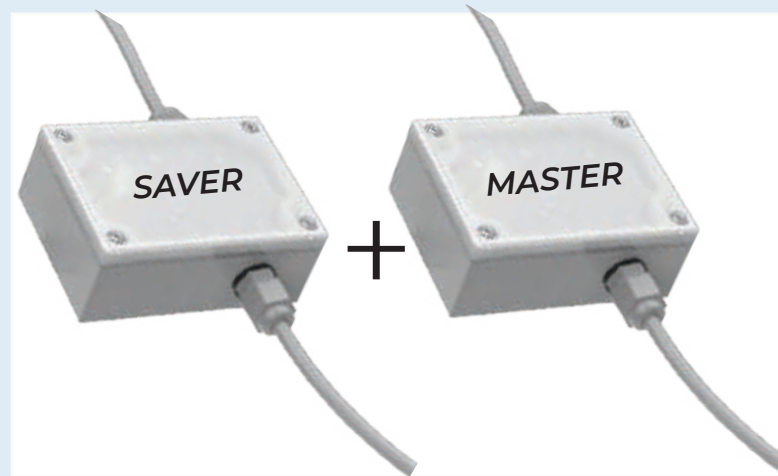

Compatible with Octoplus and/or any other displays.

Ref: TEMPO2

## “SAVER + MASTER» SYSTEM

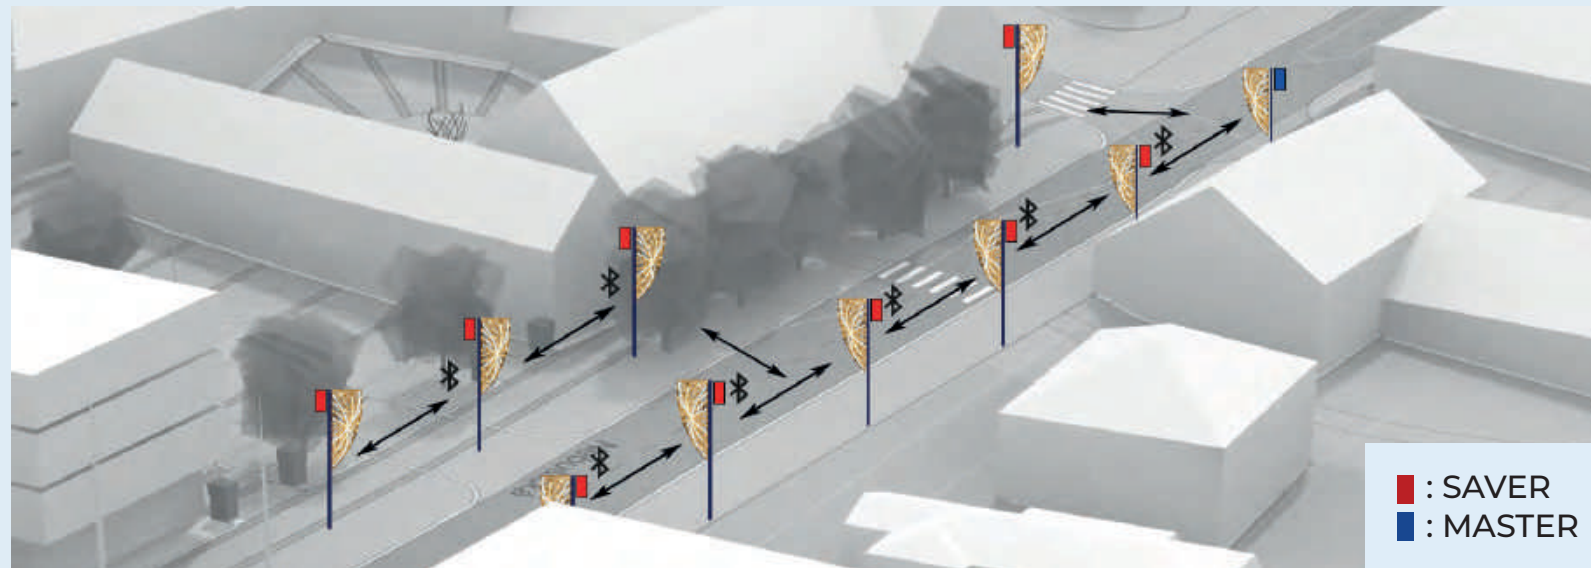

- Creation of display sets
- Calendar programming (day & switch-on time)
- Optimised switch-on times.
- Secure communication network.

Fit your light displays with “SAVER” boxes. One of the displays will be the «group leader» and will have a “MASTER” box. Distance between a SAVER and MASTER: max. 50m.

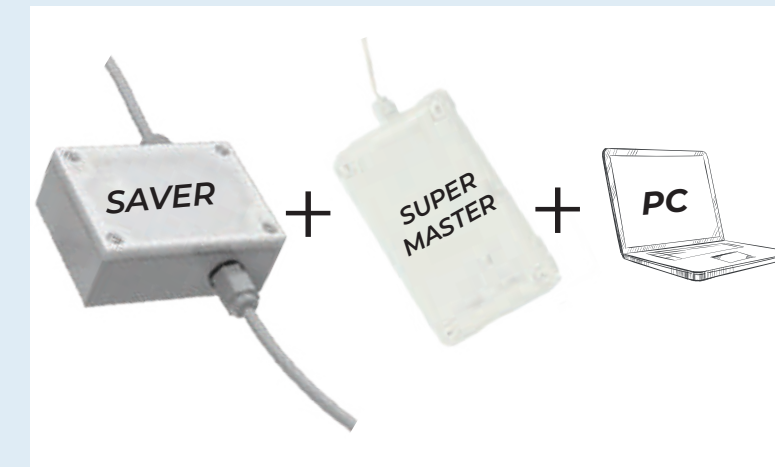

The MASTER box can be programmed with the switch-on times/days and will transmit the same information to all the SAVERS.

Pre-programmed system or that can be programmed by the customer via the dedicated mobile app.

## “SAVER + SUPER MASTER» SYSTEM

- Track energy savings
- Creation of display sets
- Calendar programming (Days & times when sets are switched on)
- Remote management of lights
- Remote control management
- Alert management (anomalies)
- Real-time view of displays
- Optimised switch-on times
- Secure communication network
- Customisable interface
- Lighting scenarios (staggered lighting, etc.)

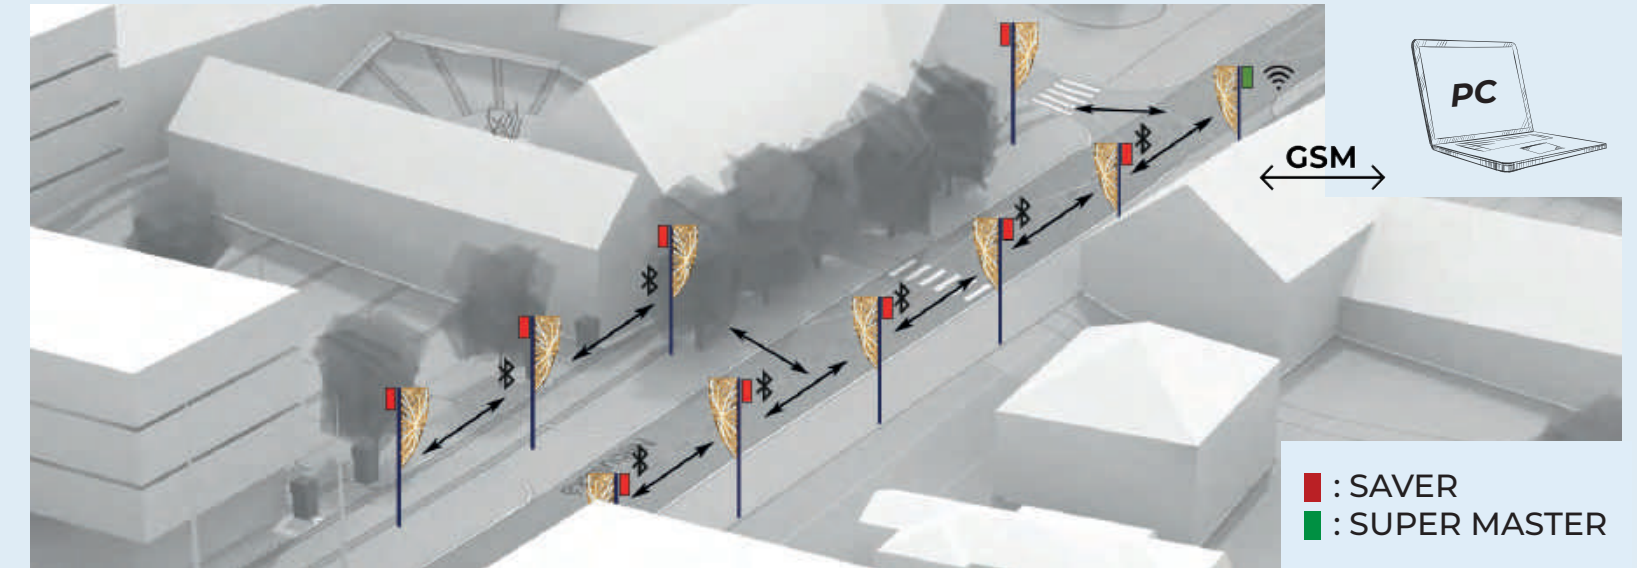

Equip all your displays with «SAVER» boxes. One of the displays has a «SUPER MASTER» box.

This controls all the «SAVER» boxes and transmits the same information to them (time/day of switching on/off).

At the same time, the «SUPER MASTER” sends information to the central system (PC + web interface) via GSM network (SIM card).

Manage all the settings for your town/city on your PC.

System requires a custom study

# OCTOPLUS BY BLACHERE®

**Exclusive**

Octoplus by Blachere® 230V connector, protection rating **IP67**, according the European standard EN60529 on the degree of protection provided by enclosures.

Safety extra-low voltage connector 12/24V

**Octoplus** is the connector that enables **fast and multiple connection** between our decorations and most of our range of garlands. Each item that is marked "Octoplus" can therefore **be connected** to another "Octoplus" item. This means **the combination of items is infinite** just by simplifying the electrical connections.

# 262 BALLASTING ILLUMINATIONS

Dress up your blocks as pretty gifts

GX165L - Santa Rock : 460 kg

- GX165L +
- . 3 x KPLO100B + KGIVO3 + KGIRO3 + KGIBA3
- . 3 x KPLO040 + 2 X KGIVO2 + KGIRO2
- . 2 x KPLO020 = KGIRO1+ KGIBA1

Use our magical gifts to hide the concrete blocks in your decorations!

Depending on the features of your decoration, put together your own ballast kit and wrap your gift (size & colour).

**Technical details:**

**1. Choose your block**

Reference	description	dimensions
KPLO100B	Concrete block - 100kg	0,37 x 0,37 x 0,37m
KPLO040	Concrete block - 40kg	0,30 x 0,30 x 0,20m
KPLO020	Concrete block - 20kg	0,20 x 0,20 x 0,20m

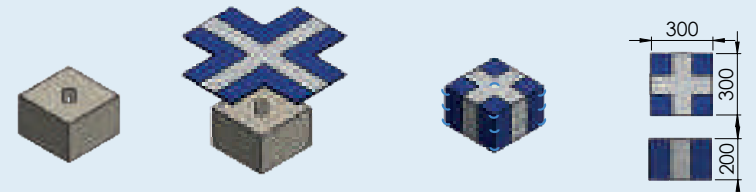

**2. Choose your cover**

reference	description	dimensions	colour
KGIBA1	Block cover - PM	0,2 x 0,2 x 0,2m	blue / silver
KGIBA2	Block cover - MM	0,3 x 0,3 x 0,2m	blue / silver
KGIBA3	Block cover - GM	0,37 x 0,37 x 0,37m	blue / silver
KGIRO1	Block cover - PM	0,2 x 0,2 x 0,2m	red / gold
KGIRO2	Block cover - MM	0,3 x 0,3 x 0,2m	red / gold
KGIRO3	Block cover - GM	0,37 x 0,37 x 0,37m	red / gold
KGIVO1	Block cover - PM	0,2 x 0,2 x 0,2m	green / gold
KGIVO2	Block cover - MM	0,3 x 0,3 x 0,2m	green / gold
KGIVO3	Block cover - GM	0,37 x 0,37 x 0,37m	green / gold

Wrapping steps (13 clips are supplied)

KPLO100B + KGIRO3

KPLO040 + KGIBA2

KPLO020 + KGIVO1

Enter the reference for the decoration + the block + the cover

# SEASONS & URBAN COLLECTION 2024

*Browse our collections of decorations for the summer as well as for your events and activities throughout the year.*

# Going paper-free

Here at Blachere, above and beyond just being deeply concerned about sustainable development and our carbon footprint, we are constantly looking for ways to increase the efficiency of the tools we use, which has naturally led us towards going paper-free.

Though the «zero paper» business is somewhat of a Utopian ideal, going paper-free considerably reduces the amount of printouts we produce and, as a consequence, our impact on the environment. The paper tools we do continue to use are printed on paper from sustainably managed forests at our «Imprim'vert» accredited printers.

Our interactive catalogue, available on our website or by email on request, gives you access to multiple additional media: videos of our decorations and installations, how they look in the daytime, work in progress photos and technical information about the products.
